Education

Year	Degree/Examination	Institution/Board	CGPA/Percentage
2021	Bachelor of Computer Applications	Sanpada Commece And Technology	8.11/8.11
2018	Intermediate (Class XII)	Arya Gurukul International Collage	57.47/57.47
2016	Matriculation (Class X)	Shree Vivekanand Hindi High School	67.4/67.4

Experience

informachine | WebScraping Developer

September 2022 - Present

Internship and Certifications

Newton School | FULL STACK WEB DEVELOPMENT || BOOTCAMP TRANING

July 2022 - Present

- Full Stack Web Development along with Data Structures and Algorithms and Problem Solving.
- Technical Stack learnt: HTML, CSS, JavaScript, ReactJS
- Participated in coding contest held by Newton School
- Worked on real time projects

Care24 | Internship Certification || Django Jr Developer

March 2022 - June 2022

Roles and Responsibilities

- working on django framework,python,PostgreSQL'
- API Integration for CRM Dashboard.
- Writing and resolving Database queries and SQL queries.

Maxgen Technology | Python Django Certification

September 2021 - February 2022

learn core python and advance python with django framework

Projects

Linkedin-Clone | self ([link](#))

May 2023 - May 2023

Feature:

- User can login via email password.
- User can add article and post and also can like post and update profile.

Tech Stack: HTML, CSS, JavaScript and React ,Redux Toolkit,JS, JSX, API.

7. This is not a complete project . the ui need to improve like product card or mobile responsive.i will update this in feature.

Resume Builder App | self ([link](#))

April 2023 - April 2023

Features:

- this is a dynamic resume building app .
- this project has simple UI i focus only functionality parts.
- in this project only user fill our details and click on generate resume this will download our resume.

Tech Stacks Used: HTML , CSS ,JavaScript, React .

Description: User can make our resume just fill out details in form and press generate resume pdf this will download your resume .

Features:

- We can Add,Edit,Delete,Read Complete CRUD Base Project.
- This project based on **Authentication** and **authorization at particular user**.
- Also have **Search** functionality so that we can search perticulat content.

Tech Stacks Used: HTML , CSS , Python , Django.**Description:** This is a Authentication System in this project User can Create Account and login to the website**Authentication System** | Self practice ([link](#))

January 2022 - January 2022

Features:

- User Can Create Account
- User Can Login .

Tech Stacks Used: HTML , CSS , Python , Django.**Description:** This is a Authentication System in this project User can Create Account and login to the website .

Skills

Computer languages	SQL, Python, CSS, HTML, Javascript
Software Packages	React, Django, Bootstrap, MySql

Co-Curricular Activities

I got Hackathon certificate. my Hobbie is to learn new technology

- Participated in coding challenge based on DSA held by Newton School.
- solved DSA problems on GeeksForGeeks.

solved DSA problems on LeetCode
